

C&F Quadrant brings Simfer brand to the Irish market

From mid-April, all electrical retailers will have 10 new gas cooker models to offer their customers under the Simfer brand.

The models are 50cm and 60cm twin cavity gas cookers in black or white colour with options to order either natural gas or LPG models. There is also a 60cm dual fuel cooker with double electric ovens in black colour, which can be ordered with either a natural gas or LPG four-burner gas hob top.

All models come with a three year parts and labour warranty and unlike some other brands, the customer does not need to register their product.

About Simfer

Simfer is a Turkish based manufacturer of cooking appliances. Established since 1977 the company has over 1800 employees and manufactures more than 2000 product types including many OEM products for major brands with exports to 146 countries. Simfer is now celebrating 40 years as a manufacturer by launching its range of freestanding gas slot in appliances in Ireland.
