

Case Study: Portiuncula Hospital, Ballinasloe, Co. Galway

The Hospital has installed 1 No. Buderus GE615/10 660 kW boiler which is fired with a Riello RLS70 2-Stage dual fuel burner. This cast iron high efficiency boiler is assembled from sections and is ideal for boiler houses that have poor access. The Buderus GE cast iron range of floor standing boilers is one of the most efficient cast iron boilers on the market.
